Marcos Tulli

Software engineer / React

Experienced and dedicated Front-End Developer with a keen knack for crafting immersive and user-centric web applications using the finesse of ReactJS. Demonstrating a proven history of harmonious cross-functional teamwork, I skillfully transform high-level design concepts into polished digital experiences that resonate with end-users. Fueled by a Bachelor's degree in computer programming from Teclab instituto tecnico, and complemented by PluralSight and Azure certifications, my toolkit boasts proficiency in TypeScript, JavaScript, Next.js, NodeJs, HTML, CSS, and Agile methodologies. Enthusiastic about leveraging my expertise to enhance digital solutions and drive enduring success.

Work Experience

Front-End Developer — Nov 2022 - Present
Raona

- Working on developing and deploying scalable applications
- Utilizing ReactJS to design and implement front-end features, resulting in improved user experience and satisfaction
- Collaborating with the team to deliver high-quality products on time

### RPA Developer — Jul 2022 - Nov 2022
Softtek

- Developed and deployed bots to automate business processes, resulting in a 60% reduction in processing time
- Successfully implemented RPA solutions that accelerated digital transformation by 80%
- Created bots to streamline workflows, reducing the number of errors by 95%

Front-End Developer — Sep 2020 - Jun 2022
Mercap

- Developed HTML templates and designed responsive websites
- Participated in design meetings with clients to take high-level design requirements and turn them into user stories for the development team
- Coded new features for client websites and fixed identified bugs

Education & Certifications

- **Bachelor's degree in computer programming**
  Teclab instituto tencico
- **PluralSight path**
  150+ hours of Front-End development path
- **Cloud Computing**
  AZ-900 certified
- **React**
  National Technological University

Skills

TypeScript	Linux
JavaScript	Azure
Next.js	Networking
ReactJS	Virtual Machines
NodeJs	Testing
HTML	Git / Bash
CSS	SQL - MongoDB
SASS	Redux
Agile	Material UI
